

# Seton Catholic School

## Lego Robotics Club

### Who:

All 4th - 8th graders interested in Robotics are invited to participate.

### What:

The purpose of the club is to offer students an opportunity to have fun and learn some very basic programming and robotics. During club meetings, the students will learn to use the components to build robots and learn to program their robots using the icon-based programming software. After they have mastered basic programming skills, students will then program their own robots to accomplish tasks and solve challenges. Problem solving and logical thinking skills will be emphasized. Students will be working in teams.

### When:

Informational Meeting Wed. September 26th 3:30 - 4:30 pm  
Every Other Wednesday Beginning October 3rd - March 20th from 3:30 - 4:30 pm.

### Where:

All Sessions in ITC. Students must have a ride home at 4:30 pm each Wednesday. Please pick up your child in the student lobby.

### How:

Complete and Return Permission to Participate by September 26th. Slips may be turned in at the informational meeting.
